PROFESSIONAL SUMMARY

Full Stack Engineer with 1+ year of experience building scalable React-based applications and cloud-integrated platforms. Strong foundation in performance optimization and modular UI architecture. Experienced in integrating REST APIs, WebSockets, and deploying AI-driven and enterprise applications on AWS. Passionate about building high-performance, user-centric interfaces for next-generation platforms.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL
Frameworks & Libraries: FastAPI, React.js, Node.js
Frontend: HTML5, CSS3, Tailwind CSS, Responsive Web Design
Databases: PostgreSQL, MongoDB
Cloud & Tools: AWS (S3, Lambda, EC2), CI/CD, Git & GitHub, VS Code, REST APIs, JWT, Postman
AI / ML: Generative AI, Agentic AI Fundamentals, Machine Learning Foundations
Practices: Agile/Scrum, SDLC, Decoupled Architecture, RBAC, API Integration

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jul 2025 – Present

Hyderabad, Telangana

- Developed full-stack web applications using Python (FastAPI) for backend services and React.js for responsive frontend interfaces.
- Designed RESTful APIs across decoupled frontend-backend systems, standardizing data contracts and reducing cross-team integration issues.
- Built reusable React.js and Tailwind CSS UI components, speeding up feature delivery and ensuring a consistent experience across devices.
- Implemented JWT-based authentication and RBAC to secure sensitive user data and enforce authorization policies.
- Optimized PostgreSQL and MongoDB queries, reducing API response times and improving overall application performance.
- Collaborated in an Agile environment — sprint planning, code reviews, and daily stand-ups — to deliver features on schedule.

PROJECTS

RailCab – On-Demand Transportation Platform

2025

React.js · FastAPI · AWS · Secure Authentication

- Built a secure transportation booking platform enabling users to book bike, auto, and cab services based on source and destination points.
- Integrated backend services with secure, authenticated API communication and deployed on AWS, ensuring reliability and government-level security standards.

MediStocks – Medicine Expiry Management System

Jan 2026

React.js · FastAPI · PostgreSQL · AWS S3 · RBAC

- Built a full-stack pharmaceutical inventory platform to track medicine stock and automate expiry alerts, reducing manual tracking overhead.
- Implemented custom React hooks for state management and integrated REST APIs for real-time inventory updates.
- Designed a pharmacist dashboard to visualize stock levels and upcoming expirations, improving decision-making speed.

EDUCATION

Bachelor of Science in MPCs

2017 – 2020

Ideal College of Arts and Science, Kakinada, AP

Intermediate (MPC)

2015 – 2017

Sri Vikas Junior College, Kakinada, AP
